## Hiring Manager

Axiro Semiconductor

**Dear Hiring Manager,**

I am writing to express my keen interest in the Business Development Manager position at Axiro Semiconductor, as advertised. The opportunity to build Axiro's edge AI product portfolio in India from the ground up is particularly exciting, aligning perfectly with my experience in technology strategy, business development, and AI-driven solutions.

With over 20 years of experience in enterprise architecture and a deep understanding of AI, including Agentic AI systems and LLM-powered transformation, I am confident in my ability to drive revenue generation and design-win activity for Axiro. My background at Dell Technologies, where I spearheaded the architecture of a \$2B e-commerce platform and designed Agentic AI conversational assistants, demonstrates my capacity to translate business imperatives into tangible technological advancements and significant revenue uplift. My experience includes working with global teams, including offshore delivery and CoEs, and I am adept at building strong relationships with executive and technical stakeholders. I am also the Chief Technology Advisor to a funded startup, driving AI roadmap, architecture, and strategic technology initiatives.

I am eager to discuss how my skills and experience can contribute to Axiro's success in the edge AI market. Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

**Manav Ghosh**
