Hiring Manager

Promaynov Advisory Services Pvt. Ltd

Dear Hiring Manager,

I am writing to express my keen interest in the Associate Director - GenAI position at Promaynov Advisory Services, as advertised. My 20+ years of experience in enterprise architecture, coupled with deep, hands-on expertise in agentic AI systems and LLM engineering, aligns perfectly with the requirements outlined in the job description.

As a Distinguished Member of Technical Staff at Dell Technologies, I've spearheaded the design and architecture of AI-driven solutions, including Dell.com's agentic AI conversational assistant. My work extends beyond architecture to encompass the entire AI lifecycle, from strategy and governance (including STRIDE threat modeling) to model lifecycle management and risk mitigation. I've also championed the Model Context Protocol (MCP) for enterprise integration, ensuring seamless interoperability across diverse systems. My passion lies in translating cutting-edge AI research into practical, enterprise-ready solutions. I've actively contributed to the open-source community with projects like API2MCP, a framework for converting APIs into MCP servers using LangGraph. Furthermore, my thought leadership on Medium and LinkedIn focuses on agentic AI enterprise maturity and the Agentic Development Lifecycle (ADLC), demonstrating my commitment to shaping the future of AI in the enterprise. I am confident that my ability to engage senior stakeholders, lead cross-functional teams, and mentor AI engineers and data scientists would be a valuable asset to Promaynov.

I am eager to discuss how my skills and experience can contribute to Promaynov's success in the rapidly evolving AI landscape. Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Manav Ghosh
